Summary

B.Tech CSE graduate and Full-Stack Developer skilled in React.js, JavaScript (ES6+), and REST API integration, with a full-stack project behind an IEEE-published research paper. Seeking a Frontend or Full-Stack Developer role to build scalable, production-ready web products.

Core Skills

- **Languages:** C, Java, SQL, JavaScript (ES6+)
- **Frontend:** React.js
- **Backend & APIs:** Node.js, REST API Integration, FastAPI
- **Databases:** MySQL
- **Tools & Practices:** Git, GitHub, Postman, Debugging

Experience

Software Developer Intern

May 2024 – July 2024

S.H. Solutions – E-commerce Firm, Bijour, UP (Hybrid)

- Built 10+ responsive web pages and reusable UI components using React.js, JavaScript (ES6+), HTML5, and CSS3
- Integrated REST APIs for dynamic data fetching; reduced page load time by 35% through code refactoring and asset optimization
- Improved organic traffic by 20% via SEO best practices; ensured cross-browser compatibility using Git/GitHub workflow

Projects

Image & Text-Based Plagiarism Detector

2025 – 2026

Python, FastAPI, SpaCy, Sentence Transformers, Tesseract OCR, OpenCV, Next.js, TypeScript, Tailwind CSS

- Built a full-stack plagiarism detection system for text (DOCX, PDF) and image-based content using OCR and NLP
- Designed a FastAPI backend with REST API endpoints for sentence-level similarity scoring
- Built the frontend dashboard with Next.js, TypeScript, and Tailwind CSS; documented APIs with Swagger UI

Hospital Management System

2024

HTML, CSS, JavaScript, PHP, MySQL

- Built a full-stack web app with CRUD operations for managing patients, doctors, appointments, and records
- Implemented secure user authentication and optimized MySQL queries for efficient data retrieval

Sign Language to Text Converter

2024

Python, OpenCV, Machine Learning, Jupyter Notebook

- Built a real-time hand gesture recognition system converting sign language to text using computer vision
- Improved prediction accuracy through image preprocessing and classification model tuning

Education

Sharda University – B.Tech, Computer Science & Engineering
Greater Noida, UP

2022 – 2026

Achievements & Certifications

Published Research

- IEEE Xplore (2025): Co-authored *Multi-Modal Plagiarism Detection in the Era of AI*
- ICICC-2026 (Springer): Presented *CASSILite: Resource-Efficient OCR & Concept-Aware Framework for Plagiarism Detection*

Certifications

- NPTEL (IIT): Education for Sustainable Development (IIT KGP, 2025) · Leadership & Team Effectiveness (IIT Roorkee, 2026) · Vulnerability Studies (IIT Madras, 2024) · Game Theory (IIT Kanpur, 2024)
- Oracle Academy: Database Programming with PL/SQL · Database Foundations · Java Fundamentals · Java Foundations (2023–2024)
- Udemy: The Complete Web Development Bootcamp – Dr. Angela Yu (63 hrs, Oct 2023)
